## Overview

---

**Milke Danda Trek is one of the new and popular trekking routes of Nepal which is elongated and elevated forest trek that crinkles and spilt the Tamur Valley and Arun in the Eastern part of Nepal. This trekking package will illustrate the immense outlook of numerous peaks counting Makalu (8,463m) and Kanchenjunga (8,586m) but from this danda you will get to view the pleasant landscapes during your tour Nepal.**

Milke Danda Trekking is one of the long and high forest ridges that divide the Arun and Tamur valley in the eastern Nepal. In the trekking field it is identified as the out-of-the-way trekking destination despite the fact it tenders astounding landscapes of Peaks through the Milke Danda area. Nature Trail will help you to hold close the stretched and forest.

Our journey starts from a drive to Basantpur which will offer the views of Makalu 8,463m to the west and Kanchenjunga 8,586 m. We will spend our overnight there. On the following day we commence our trek to Chauki which is situated at an elevation of 2,700 metres. Tour to Nepal sooner or later concludes in some elevated peaks. Therefore, you will go back over the same trekking routes moving downhill to Chainpur. The trek grade is said to be easy and the maximum elevation that it covers is 3,124 meter. Seeing your preference you can either stay in hotel/ lodge or tented camp. Trekking in Milke Danda is so much fun, mainly in spring season because at that time the area is covered with thriving Rhododendron. Consequently, it is recognized as Rhododendron trek as well. There are huge forests of rhododendrons along the ridge. Especially Milke Danda is the popular area in Nepal, where we can see many different kind of flowers including the Nepal's national flower rhododendrons. Have a trek in spring and you can get attractive prospect.

The Milke Danda trek is an extraordinary trekking tour for the breathtaking flower scenery it offers each spring and also for the superb mountain views. It is a "must do in life" trip for all the lovers of flowers and nature.
